

NOW THAT ROOT CANAL TREATMENT IS COMPLETE

Now that your root canal treatment is completed, it's time to return to your regular dentist. He/she will remove the temporary outer filling which has just been placed and replace it with a permanent outer filling.

Your regular dentist is the one who must place this restoration because he/she is the one who must determine your particular needs – crown, inlay, silver filling, bonding, etc. He/she is being informed that your root canal treatment is now completed.

*Please try to avoid chewing on the treated tooth
until a permanent restoration is placed.*

If any questions or difficulties arise concerning your treatment, please do not hesitate to call at any time.

SCOTT BRAM, D.M.D. • BRIAN FREY, D.M.D.
